[Article crossposted from rec.radio.amateur.equipment]
[Author was Scott Mitchell Jennings]
[Posted on Wed, 16 Feb 1994 11:09:26 GMT]

I'm looking for a 70cm (440MHz) synthetsized transciever. I
don't care if the controls are smashed, the case dented and
beatup, etc. so long as it can transmit and receive.

I'll be hacking it for remote computer control.

-smj

3. seek old CDR rotor (or replacement)

Newsgroup: rec.radio.amateur.swap
Date: 1994-06-12 04:18:45 UTC
From: ddl@harvard.edu
Message-ID: <362@ddlgw.UUCP>
Source record: 11263
Cross-posted to: rec.radio.amateur.equipment,rec.radio.amateur.antenna,rec.radio.amateur.swap

I'm looking for an old rotor (model HAM-M) made by Cornell-Dubilier Electronics (rotor division) once of Fuquay Springs, North Carolina. The original was from ~1968 and the company has moved or ceased to exist. I'd appreciate any information about where they are now (if they are) or about a mechanically compatible replacement. Electrical compatibility is not particularly important. (The reason mechanical compatibility is important is that the rotor was mounted using their custom bottom plated rather than a pole. The plate is well attached to the tower, and the whole thing is well weathered. Using a different style of mounting looks like major work. :)

Thanks,
Dan Lanciani
ddl@harvard.*

4. AZ/EL Rotator FOR SALE

Newsgroup: rec.radio.amateur.swap
Date: 1994-06-13 12:10:34 UTC
From: debaker@bnr.ca
Message-ID: <2thibq$ngk@crchh7b0.bnr.ca>
Source record: 11264
Cross-posted to: rec.radio.amateur.swap,rec.radio.amateur.space,rec.radio.amateur.antenna

Hello,

I have a like new Az/El rotator for sale. It is designed for light duty vhf/uhf antennas, such as an Oscar setup. Comes ready to mount on a 1.5 inch (max) vertical mast and will accept up to a 1.5 inch horizontal mast such as the fiberglass unit from KLM. Comes with a control head for each rotor, and can be easily connected to a computer for automatic control (with minor modifications).

These units are capable of carrying a fair load. I have had no problems turning a pair of KLM's (2M-14C/435-18C), even without balancing them. Rotation time is about 60 seconds AZ, 30 seconds EL (180 degrees). These units have never been outdoors either...only used inside.

I am offering two 75 foot lengths of new 5 conductor wire FREE with the package. Also, the unit can be controlled using a single 8 conductor rotor wire if desired.

I am asking $175 + shipping.

Please email to debaker@bnr.ca
or call, 214-684-7351 (day)
73,

9. ROHN-45 SELF-SUPPORTING TOWER FOR SALE

Newsgroup: rec.radio.amateur.swap
Date: 1994-07-01 20:05:27 UTC
From: arina@bbn.com
Message-ID: <2v1su7$hcv@info-server.bbn.com>
Source record: 11269
Cross-posted to: rec.radio.amateur.swap,ne.forsale

Hello,
This is posted for a friend.

F O R S A L E : SELF-SUPPORTING ROHN-45-BX TOWER
Thrust bearing installed at the top section.
7 years old, fair condition.
$325 - call (617) 484-9153, ALEX, WK1O.

The tower will easely handle a tribander like TA33 plus
some UHF and VHF antennas. It is not suitable for TH7
antenna size. The tower is disassembled and ready to
pick up in Belmont, MA (15 min from the center of Boston).

P.S.The original model of the tower is ROHN-HAX-48, designation BX is probably
not 100% correct. The tower was designed to handle a tribander like TA-33
which is Mosley tribander with the length of the boom 12f (I have one for sale
if you are interested). That tribander + 6m 10-element yagi + 2m 10-elem yagi
+ .7m 15-element yagi have been on the top of this tower for 7 years.

If interested or you have any question, please call
(617) 484-9153 ALEX, WK1O.

10. Wanted: Icom IC-211

Newsgroup: rec.radio.amateur.swap

I figured it's time to upgrade to a more modern rig so ....anyone have an ICOM IC-211 (the 2m base station) for sale?

(Hey, don't laugh, my main rig is a TS700, the mobiles are a Kenwood TR7600 and an ICOM IC-280........)

Forward into the late 70's!

Lee

Im rebuilding the phaseing delay lines for my KLM amateur satellite yagis and need to located a source to acquire about ten feet of RG-302 75 ohms and ten feet of RG-303 50 ohms, teflon coax cable.

RG-302 & RG-303 both have teflon dielectric and a silvered copper shield, both have inner conductors of silver-plated copper-plated steel. They are designed for high-temperature operation. I suspect they were selected by the antenna manufacturer because of low temperature coefficients. I don't want to use Radio Shack 75 ohm TV cable.

Different velocity factors between teflon and polyethylene.

polyethylene = 66.5% teflon = 69%

KLM sells the complete phaseing kit replacements for $49 each, however I feel I should be able to replace just the coax for at least half that price.

If anyone knows of a source for RG-302 & RG-303, please post here or reply via eMAIL direct.

Thanks and 73s,
Tom - WB7ASR... (not speaking for Intel)

I have the following items forsale. All items are in good working
order. Will consider offers or trades. Most items have some sort of
manuals a few have boxes. Will consider trades, below the sale list
is a list of wanted items.

RF: 2 11 elem 900mhz DownEast loop yagi. (up < 3 months) $ 35 each
1 45 elements MODE S Down East loop yagi's(never up) $ 50

Uniden CP 1500 cell bag phone $ 60

AMPIRE preamp for 432 (oscar) $100
AMPIRE preamp for 144 (oscar) $100
Down East mode S preamp Kit, unassembled. $ 50
ARR P28VD 10meter preamp. $ 50
Yeasu SC-1 Station console. $ 40
mount a 144 and 440 multi mode mobiles onto unit for
intergrated oscar station. Includes clock, tone pad
and B/J microphone switch.

MAXON XK wireless radar detector. $ 50
1 sender mount behind grill, receiver can be mounted
anywhere out of view

TVC-2G ATV receiver board, NEW unused $ 30
PA5 ATV 10watt amp, NEW unused $ 75
FMA5-E add audio to your ATV video signal, NEW unused $ 20
TXA5-70 video transmiter board. $ 50
Panasonic WV 1500 B/W camera with lens (condition fair) $ 50
RCA TC2112 B/W camera with ALC lens (condition fair $ 75
Video 100 B/W video monitor. $ 40

PACKET: Hapn 4800 kit, unassembled $ 50
k9ng modem, assembled $ 50

CPU: AMI fullsize 386/25 $ 60
IBM lugable, 640K, 360 floppy, PS, keyboard, monitor $ 50

CASE: PC case with 200watt PS, 360k floppy $ 30
PC mini tower 200watt PS, no face plate $ 30

Disk: 2 ESDI 383mb 1/2ht $200 each
AT ESDI controller (free with ESDI drives) $ 75
CDC 669mb SCSI hard disk FH $300
207MB SCSI disk. 3.5 $125 each

I/O: AT&T IPC802 8 serial, 2 parallel (dos/unix drivers) $ 60
3B2 512kb memory cards $ 25
3b2 ports card $ 30
500watt internal PC UPS. Takes 1 8bit slot $ 75
Atlantic Research Rs232 Patch Panel $ 60
16 bays, 10 populated with monitor port

MODEM: Telebit T3000 $325
Telebit WorldBlazer $375

MISC: Sony SVU-S1VSL Voice unit, new, unused $ 75
Sony SVU-S1VSL Voice unit, used $ 50
2 Obrien Life vest, under 1 season $ 30 each

TERM: VT1200 DEC Xterminal $500

ASIS: All items removed from service work but current conditon unknow.

386-16 motherboard, 0K. Removed from service working $ 25
XT-10mhz, 512K $ 10

TRADES: I am looking for the following items.

Laser printer with parallel port, HP or Postscript
Ham radio equipment
Wireless lan or microwave equipment.
Sun Sparc workstations
Sbus video capture board.
SunTuner
8mm tape drive.
Interesting computer items.
110v gas generator
whatever..

Jim

I fixed the Sten. I got it with a 10" barrel and a 10" barrel. I heard about a gun expert. He's done quite a few autoconversions already.

29. VDS ou ECHANGE TNC tous modes KANTRONICS KAM+

Newsgroup: rec.radio.amateur.swap
Date: 1994-10-27 08:22:12 UTC
From: jcmonier@muguet.saclay.cea.fr
Message-ID: <38nnvk$aia@anemone.saclay.cea.fr>
Source record: 11289
Cross-posted to: cern.radio,fr.petites-annonces.divers,rec.radio.amateur.swap,misc.forsale

Bonjour et merci de lire cette petite annonce.

Je vends (cause double emploi) le TNC (Terminal Node Controller) suivant :

```
*****************************
* *
* KANTRONICS KAM PLUS *
* *
*****************************
```

dont les principales caracteristiques sont :

- tous modes : packet, CW, FAX, NAVTEX/AMTEX, RTTY/ACSII, AMTOR
PACTOR, G-TOR ...
- mode KISS (pour NOS : TCP/IP par radio)
- PBBS de 128 Ko (Personnal Mail System + BBS)
- 2 ports separes (HF + VHF/UHF simultanes)
- Gateway HF <-> VHF/UHF
- KA-NODE (digirepeater 'intelligent' dans le style de TheNet)
- Remote Access (acces distant par le SYSOP)
- ... etc

Note : Ce TNC a ete essaye dans la magazine MEGAHERTZ de Juillet il me
semble, du moins dans un tres recent numero de ce magazine.
Vous pouvez donc vous reporter a cet essai ...

Bien entendu, il est vendu dans son emballage d'origine et avec
toutes les documentations et soft originaux.

Le prix n'est pas fixe car je desirerais echange ceci contre un
TX/RX UHF de preference (ou VHF) portable de preference
(ou mobile) dans le style TH 28/48 E KENWOOD.

Repondre par E-mail ou me contacter directement aux heures de bureau
au numero mentionne dans la signature.

Souhaitant votre interet,
73 a tous,

Jean-Christophe MONIER
